ABOUT PMP® CERTIFICATION

What is PMP® Certification?

The **Project Management Professional (PMP®)** certification, offered by the **Project Management Institute (PMI®)**, is the world's most recognized and respected credential for project managers. It validates a professional's ability to successfully lead projects, manage teams, engage stakeholders, deliver business value, and achieve organizational goals across industries and geographies.

LEARNERSKART PROJECT MANAGEMENT PROFESSIONAL (PMP®) Certification Training

Master the Future of Project Management with PMBOK® Guide 8th Edition

Learnerskart's PMP® Certification Training is designed to help professionals prepare for the PMP exam with expert-led live training, 35 contact hours, comprehensive study materials, full-length mock exams, PMI application guidance, and mentor support to help maximize exam success.

Why Choose Learnerskart?

- ✓ PMBOK® Guide 8th Edition Aligned
- ✓ Latest PMI® PMP® Examination Content Outline (July 2026)
- ✓ 35 Hours Live Instructor-Led Training
- ✓ 35 PDUs Certificate
- ✓ 2000+ Practice Questions
- ✓ 6 Full-Length Mock Exams
- ✓ AI, Sustainability & Governance Coverage
- ✓ Predictive, Agile & Hybrid Approaches
- ✓ PMP® Application Assistance
- ✓ Lifetime Learning Support

WHY LEARNERSKART?

Your Trusted Partner for Professional Certification Success

GUARANTEED TRAINING CLASSES

Well-structured training with complete coverage

QUALITY ASSURANCE

High-quality content & industry best practices

EXPERIENCED TRAINERS

Learn from certified & industry-experienced trainers

RECOGNIZED CREDENTIALS

Globally recognized certifications

STRUCTURED LEARNING

Systematic and easy-to-follow learning approach

FLEXIBLE LEARNING

Weekday / Weekend batches & flexible schedules

INDUSTRY RELEVANCE

Up-to-date content aligned with industry needs

Who Should Attend?

PMP® certification is ideal for professionals responsible for leading projects, managing teams, coordinating stakeholders, and delivering organizational objectives.

- ➔ Project Managers
- ➔ Program Managers
- ➔ PMO Managers
- ➔ Delivery Managers
- ➔ Consultants
- ➔ Scrum Masters
- ➔ Team Leaders
- ➔ Manufacturing Professionals
- ➔ Govt. Project Professionals
- ➔ Assistant Project Managers
- ➔ Portfolio Managers
- ➔ Project Coordinators
- ➔ Engineering Managers
- ➔ Business Analysts
- ➔ Technical Leads
- ➔ Construction Professionals
- ➔ IT Professionals
- ➔ Healthcare Project Managers

WHO SHOULD ATTEND PMP® CERTIFICATION?

PMP® is designed for professionals across industries and experience levels who want to lead projects and drive results.

PROJECT MANAGERS

Experienced project managers looking to validate their skills and advance their careers.

TEAM LEADS & SUPERVISORS

Leading teams and managing projects, seeking structured project management methodologies.

PROGRAM MANAGERS

Overseeing multiple projects and programs aiming to enhance strategic and leadership capabilities.

FUNCTIONAL MANAGERS

Managers from non-PM backgrounds who want to manage projects effectively and drive business outcomes.

ASPIRING PROJECT MANAGERS

Professionals aiming to transition into project management roles and build a successful PM career.

IT PROFESSIONALS

IT experts, developers, analysts, and consultants managing or working in project environments.

ENGINEERS & TECHNICAL PROFESSIONALS

Engineers and technical experts involved in planning, executing and delivering projects.

BUSINESS ANALYSTS & CONSULTANTS

Professionals involved in requirement gathering, analysis, solution design and project delivery.

PMO PROFESSIONALS

PMO team members looking to standardize processes and improve project governance and performance.

ENTREPRENEURS & BUSINESS OWNERS

Business owners and entrepreneurs who want to apply project management principles to grow their ventures.

INDUSTRY PROFESSIONALS

Professionals from industries like BFSI, Healthcare, Retail, Construction, Telecom, Manufacturing & more.

FRESH GRADUATES & EARLY CAREER PROFESSIONALS

Individuals at the early stage of their career aiming for long-term growth in project management.

Global Recognition

PMP® certification is accepted across industries including:

- ➔ Information Technology
- ➔ Construction & Infrastructure
- ➔ Banking & Financial Services
- ➔ Pharmaceuticals
- ➔ Energy & Utilities
- ➔ Telecommunications
- ➔ Aerospace & Defense
- ➔ Manufacturing
- ➔ Engineering
- ➔ Healthcare
- ➔ Oil & Gas
- ➔ Government
- ➔ Consulting
- ➔ Automotive

GLOBAL RECOGNITION

 PMP® certification is accepted across industries including:

-  Information Technology
-  Construction & Infrastructure
-  Manufacturing
-  Engineering
-  Banking & Financial Services
-  Healthcare
-  Pharmaceuticals
-  Energy & Utilities
-  Oil & Gas
-  Telecommunications
-  Government
-  Consulting
-  Aerospace & Defense
-  Automotive

One certification. Limitless opportunities. Worldwide.

BENEFITS OF PMP® CERTIFICATION

Transform Your Career with PMP® Certification

PMP® certification is more than a professional credential—it is an investment in your long-term career growth. It validates your ability to lead projects successfully, solve business challenges, and deliver value in a rapidly changing global environment.

Professionals who earn PMP® certification often experience increased career opportunities, stronger professional credibility, and greater confidence in managing projects of any size or complexity.

BENEFITS OF PMP® CERTIFICATION

ENHANCED CAREER PROSPECTS

PMP® certification opens doors to better job opportunities, promotions, and leadership roles.

HIGHER EARNING POTENTIAL

PMP® certified professionals earn significantly more than their non-certified peers.

GLOBAL RECOGNITION

PMP® is a globally respected credential recognized and valued across industries and countries.

IMPROVED SKILLS & KNOWLEDGE

Strengthen your project management expertise with best practices and real-world application.

INCREASED CONFIDENCE

Gain the confidence to lead complex projects and drive successful outcomes.

STRONGER PROFESSIONAL CREDIBILITY

Demonstrate your commitment to the profession and earn the trust of employers, clients, and teams.

EXPANDED PROFESSIONAL NETWORK

Connect with a global community of PMP® professionals and expand your network.

BETTER PROJECT PERFORMANCE

Apply proven methodologies to improve project planning, execution, and results.

ORGANIZATIONAL IMPACT

Help your organization achieve strategic goals, optimize resources, and deliver greater value.

ADAPTABILITY ACROSS INDUSTRIES

PMP® skills are applicable across industries, methodologies, and project environments.

PMP® CERTIFICATION – EMPOWERING PROFESSIONALS. TRANSFORMING CAREERS. DRIVING SUCCESS.

EXAM CONTENT OUTLINE

The following table identifies the proportion of questions from each domain that will appear on the exam

Domain	Exam Weight (%)
I. People	33%
II. Process	41%
III. Business Environment	26%
Total	100%

PMP® EXAM CONTENT OUTLINE

The PMP® exam evaluates your ability to apply project management principles and skills across three key domains.

PEOPLE

Leading a team and effectively engaging stakeholders.

PROCESS

Managing projects efficiently and delivering value.

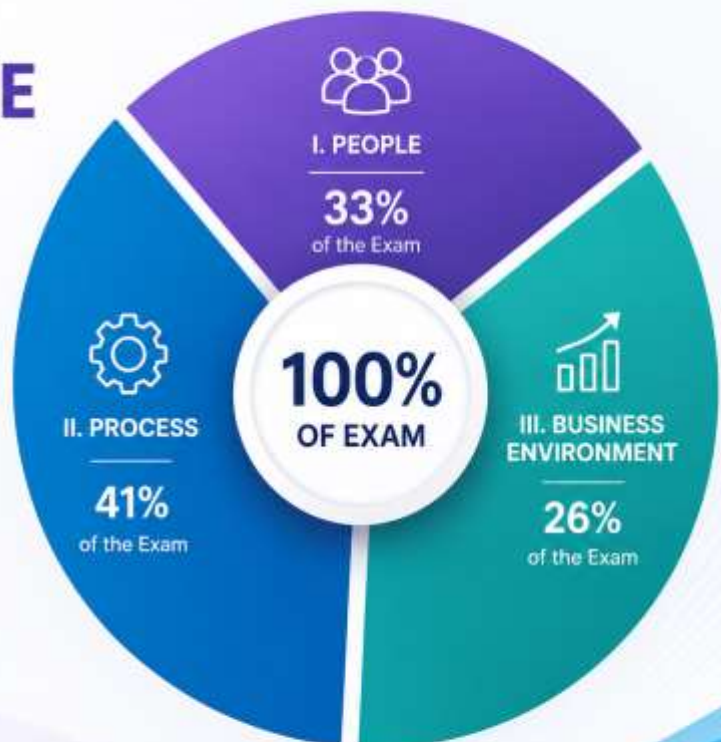

BUSINESS ENVIRONMENT

Aligning projects with organizational strategy and business objectives.

FOCUS • LEARN • LEAD

Master the essentials. Deliver value.
Drive organizational success.

PMP® EXAM DOMAINS (JULY 2026) Latest

PMI® PMP® Examination Content Outline

DOMAIN I – PEOPLE – 33%

Task 1

Develop a common vision

- Help ensure a shared vision with key stakeholders.
- Promote the shared vision.
- Inspire the vision onward.
- Break down situations to identify the root cause of a misunderstanding of the vision.

Task 2

Manage conflicts

- Identify conflict sources.
- Analyze the context for the conflict.
- Implement an agreed-on resolution strategy.
- Communicate conflict management principles with the team and external stakeholders.
- Establish an environment that fosters adherence to common ground rules.
- Manage and rectify ground rule violations.

Task 3

Lead the project team

- Establish expectations at the team level.
- Empower the team.
- Equip our team.
- Represent the voice of the team.
- Support the team's varied experiences, skills, and perspectives.
- Determine an appropriate leadership style.
- Establish clear roles and responsibilities within the team.

Task 4

Engage stakeholders

- Identify stakeholders.
- Analyze stakeholders.
- Analyze the stakeholder communication to stakeholder needs.
- Execute the stakeholder engagement plan.
- Optimize alignment among stakeholder needs, expectations, and project objectives.
- Build trust and influence stakeholders to accomplish project objectives.

Task 5

Align stakeholder expectations

- Categorize stakeholders.
- Identify stakeholder expectations.
- Facilitate discussions to align expectations.
- Organize and act on mentoring opportunities.

Task 6

Manage stakeholder expectations

- Identify internal and external customer expectations.
- Align and maintain outcomes to internal and external customer expectations.
- Monitor internal and external customer satisfaction/expectations and respond as needed.

DOMAIN I

PEOPLE – 33%

TASK 7

HELP ENSURE KNOWLEDGE TRANSFER

- Identify knowledge critical to the project.
- Gather knowledge.
- Foster an environment for knowledge transfer.

TASK 8

PLAN AND MANAGE COMMUNICATION

- Define a communication strategy.
- Promote transparency and collaboration.
- Establish a feedback loop.
- Understand reporting requirements.
- Create reports aligned with sponsor and stakeholder expectations.
- Support reporting and governance processes.

DOMAIN II – PROCESS – 41%

Task 1

Develop an integrated project management plan and plan delivery

- Assess project needs, complexity, and magnitude.
- Recommend a project management development approach (i.e., predictive, adaptive/agile, or hybrid management).
- Determine critical information requirements (e.g., sustainability).
- Recommend a project execution strategy.
- Create an integrated project management plan.
- Estimate work effort and resource requirements.
- Assess consolidated project plans for dependencies, gaps, and continued business value.
- Maintain the integrated project management plan.
- Collect and analyze data to make informed project decisions.

Task 2

Develop and manage project scope

- Define scope.
- Obtain stakeholder agreement on project scope.
- Break down scope.

Task 3

Help ensure value-based delivery

- Identify value components with key stakeholders.
- Prioritize work based on value and stakeholder feedback.
- Assess opportunities to deliver value incrementally.
- Assess and prioritize value throughout the project.
- Verify a measurement system is in place to track benefits.
- Evaluate delivery options to demonstrate value.

Task 4

Plan and manage resources

- Define and plan resources based on requirements.
- Manage and optimize resource needs and availability.

Task 5

Plan and manage procurement

- Plan procurement.
- Execute a procurement management plan.
- Select preferred contract types.
- Evaluate vendor performance.
- Verify objectives of the procurement agreement are met.
- Participate in agreement negotiations.
- Determine a negotiation strategy.
- Manage suppliers and contracts.
- Plan and manage the procurement strategy.
- Develop a delivery solution.

DOMAIN II – PROCESS – 41%

Task 6

Plan and manage finance

- Analyze project financial needs.
- Quantify risk and contingency financial allocations.
- Plan spend tracking throughout the project life cycle.
- Plan financial reporting.
- Anticipate future finance challenges.
- Monitor financial variations and work with the governance process.
- Manage financial reserves.

Task 7

Plan and optimize quality of products/deliverables

- Gather quality requirements for project deliverables.
- Plan quality processes and tools.
- Execute a quality management plan.
- Help ensure regulatory compliance.
- Manage cost of quality (CoQ) and sustainability.
- Conduct ongoing quality reviews.
- Implement continuous improvement.

Task 8

Plan and manage schedule

- Prepare a schedule based on the selected development approach.
- Coordinate with other projects and operations.
- Estimate project tasks (milestones, dependencies, story points).
- Utilize benchmarks and historical data.
- Create a project schedule.
- Baseline a project schedule.
- Execute a schedule management plan.
- Analyze schedule variation.

Task 9

Evaluate project status

- Develop project metrics, analysis, and reconciliation.
- Identify and tailor needed artifacts.
- Help ensure artifacts are created, reviewed, updated, and documented.
- Help ensure accessibility of artifacts.
- Assess current progress.
- Measure, analyze, and update project metrics.
- Communicate project status.
- Continually assess the effectiveness of artifact management.

Task 10

Manage project closure

- Obtain project stakeholder approval of project completion.
- Determine criteria to successfully close the project or phase.
- Validate readiness for transition (e.g., to operations team or next phase).
- Conclude activities to close the project or phase (e.g., final lessons learned, retrospectives, procurement, financials, resources).

DOMAIN III

BUSINESS ENVIRONMENT—26%

TASK 1

• Define and establish project governance

- Describe and establish the structure, rules, procedures, reporting, ethics, and policies through the use of organizational process assets (OPAs).
- Define success metrics.
- Outline governance escalation paths and thresholds.

TASK 2

• Plan and manage project compliance

- Confirm project compliance requirements (e.g., security, health and safety, sustainability, regulatory compliance).
- Classify compliance categories.
- Determine potential threats to compliance.
- Use methods to support compliance.
- Analyze the consequences of noncompliance.
- Determine the necessary (approach and action(s)) to address compliance needs.
- Measure the extent to which the project is in compliance.

TASK 3

• Manage and control changes

- Execute the change control process.
- Communicate the status of proposed changes.
- Implement approved changes to the project.
- Update project documentation to reflect changes.

TASK 4

• Remove impediments and manage issues

- Evaluate the impact of impediments.
- Prioritize and highlight impediments.
- Determine and apply an intervention strategy to remove/minimize impediments.
- Review continually to help ensure impediments, obstacles, and blockers for the team are being addressed.
- Reevaluate when a risk becomes an issue.
- Collaborate with relevant stakeholders on an approach to resolve the issues.

TASK 5

• Plan and manage risk

- Identify risks.
- Analyze risks.
- Monitor and control risks.
- Develop a risk management plan.
- Maintain a risk register (e.g., poor IT security).
- Execute a risk management plan (e.g., risk response for security and managing sustainability risks).
- Communicate the status of a risk impact on the project.

DOMAIN III

BUSINESS ENVIRONMENT—26%

TASK 6

Continuous improvement

- Utilize lessons learned.
- Help ensure continuous improvement processes are updated.
- Update organizational process assets (OPAs).

TASK 7

Support organizational change

- Assess organizational culture.
- Evaluate the impact of organizational change on the project and determine required actions.

TASK 8

Evaluate external business environment changes

- Survey changes to the external business environment (e.g., regulations, technology, geopolitical, market).
- Assess and prioritize the impact on project scope/backlog based on changes in the external business environment.
- Continually review the external business environment for impacts on project scope/backlog.

Learning Outcomes

After completing this program, participants will be able to:

- ➔ Lead projects confidently
- ➔ Deliver business value
- ➔ Manage stakeholders effectively
- ➔ Apply predictive, agile, and hybrid approaches
- ➔ Manage Project risks and changes
- ➔ Improve project governance
- ➔ Make effective project decisions
- ➔ Enhance leadership skills
- ➔ Prepare for the latest PMI® PMP® Examination

PMP® ELIGIBILITY REQUIREMENTS

Are You Eligible for PMP® Certification?

To earn the PMP® certification, candidates must satisfy PMI®'s education, professional experience, and project management training requirements before submitting their application. These eligibility paths are aligned with the July 2026 Examination Content Outline.

PMP CERTIFICATION ELIGIBILITY REQUIREMENTS

To be eligible for the PMP certification, you must meet one of the educational and professional experience paths listed below. All project management experience must have been accrued within the last 10 years in a professional setting prior to your application submission.

Educational Background	Professional Project Management Experience
Completion of a four-year degree / Bachelor's degree (or global equivalent) in any field from a recognized university / institution	Minimum 36 months / 3 years of non-overlapping experience leading projects in the past 10 years
OR	
Completion of a high school diploma, associate's degree (or global equivalent) or global equivalent qualification	Minimum 60 months / 5 years of non-overlapping experience leading projects in the past 10 years
OR	
Completion of the Global Project Management Professional (GPMP®) Certification	Minimum 36 months / 3 years of non-overlapping experience leading projects in the past 10 years
OR	
Completion of the PMI Project Management Ready™ Certification	Minimum 36 months / 3 years of non-overlapping experience leading projects in the past 10 years

PMP® EXAM PATTERN & QUESTION TYPES

Latest PMP® Examination Pattern

PMP® Examination Format

The PMP® certification exam assesses your ability to apply project management principles in practical, real-world situations. Most questions are based on project scenarios that test your decision-making, leadership, and problem-solving skills across predictive, agile, and hybrid environments.

Exam Overview

- **180 questions** in total
- **240 minutes (4 hours)** to complete the exam
- **Scenario-based and application-focused** questions
- Covers **People, Process, and Business Environment** domains
- **Delivery Modes:** Computer-Based Testing (CBT) and Online Proctored Exam (where available).

Number of Scored Questions	Number of Pretest (Unscored) Questions	Total Exam Questions
170	10	180

Allotted Exam Time
240 Minutes

Question Types

The PMP exam includes a variety of question formats, such as:

- Multiple Choice
- Multiple Response (Select Multiple Answers)
- Matching
- Drag-and-Drop
- Hotspot Questions
- Other Interactive Question Types

Scoring

- PMI® does not disclose a fixed passing score. Instead, candidates are evaluated using a **psychometric scoring model**, which considers both the difficulty level of the questions and overall performance across the exam domains.

What This Means for You

- Success in the PMP exam requires more than memorizing concepts. Candidates should be prepared to:
- Analyze project scenarios
- Make informed project management decisions
- Apply PMI best practices
- Demonstrate leadership and stakeholder management skills
- Use predictive, agile, and hybrid approaches effectively

1 CASE / SCENARIO QUESTIONS

Real-world situations with multiple related questions.

SCENARIO

A technology firm is developing a new mobile application to improve customer engagement. The project has a budget of \$600,000 and a timeline of 12 months.

The project manager has noticed delays in requirements gathering and frequent changes in stakeholder expectations. The development team is also facing challenges in integrating with a third-party platform.

Despite these issues, senior management expects the application to be launched on time to stay ahead of competitors in the market.

QUESTION

Based on the scenario, what should the project manager do first to ensure the project stays on track?

A

Increase the budget to add more resources

B

Meet with stakeholders to realign expectations and priorities

C

Ask the team to work overtime to recover the delays

D

Reduce the scope of the project

HOW IT WORKS

Read the Scenario

Review the Information

Analyze the Situation

Choose the Best Answer

2 ENHANCED MATCHING QUESTIONS

Match related items using drag-and-drop or selection.

EXAMPLE DIAGRAM

Match each project performance metric on the left with the correct interpretation on the right.

PERFORMANCE METRIC

Schedule Variance (SV)

Cost Performance Index (CPI)

Scope Performance Index (SPI)

Estimate at Completion (EAC)

INTERPRETATION

Indicates cost efficiency of the project.

Forecast of the total cost of the project.

Measures schedule performance.

Indicates scope efficiency of the project.

KEY FEATURES

Visuals & Charts

Helps provide clarity with visuals, graphs and tables.

Drag & Drop

Move items to the correct match seamlessly.

Interactive

Engaging format to test real-world application.

Concept Based

Focus on understanding and application.

Types of Questions in the Updated PMP® Exam

The PMP® exam includes a variety of question types to assess your ability to apply project management knowledge in real-world scenarios.

1 Multiple Choice (Single Response)

Multiple answer choices with one correct answer.

Tests your ability to select the best solution for the given scenario.

Example:

A project team is facing frequent delays due to unclear requirements. What should the project manager do first?

- ☐ A Increase the team size
- ☒ B Review and clarify requirements with stakeholders
- ☐ C Extend the project timeline
- ☐ D Change the project methodology

2 Multiple Response (Multiple Correct Answers)

Multiple answer choices with more than one correct answer.

Tests your ability to identify all the correct solutions that apply.

Example:

Which of the following are key responsibilities of a project manager? (Select all that apply)

- ☐ A Manage the project budget
- ☒ B Develop the project management plan
- ☐ C Perform the work of the project team
- ☒ D Manage stakeholder engagement
- ☒ E Ensure quality of deliverables

3 Drag and Drop / Hotspot (Point and Click)

The item is in the form of an image with interactive hotspots. Click on the correct locations or items as per the question.

Tests your understanding of processes, charts, diagrams, and placements.

Example:

Click on the correct phase in the project life cycle where 'Monitor and Control' activities are performed.

Hotspot questions may include charts, graphs, diagrams, or process flows where you click on one or more correct areas.

4 Matching

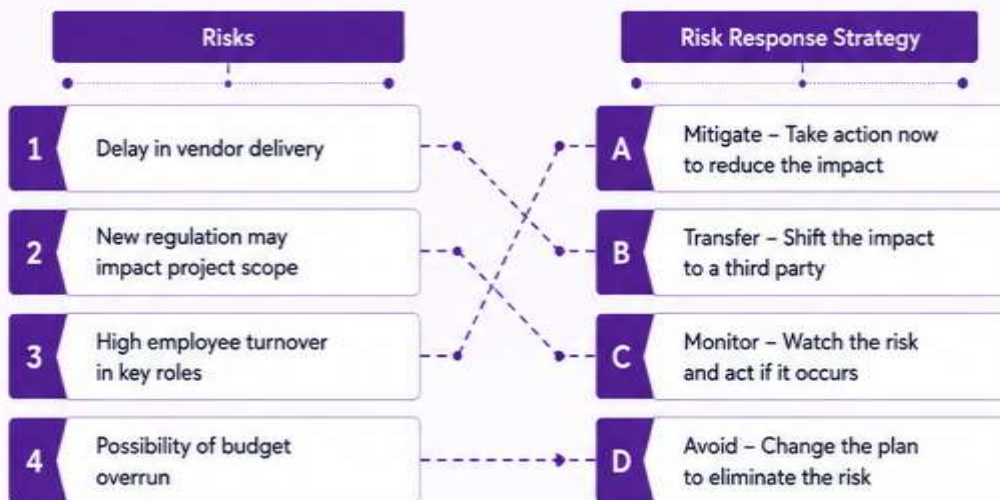

Match items from two lists. Items from the first column need to be matched with the most appropriate items in the second column.

Example:

Match the risk on the left with the most suitable response strategy on the right.

Tip: Read each item carefully and think of the best logical relationship before making a match.

5 Pull-down List

Select the correct answer for each blank or field from a drop-down list.

Example:

Select the most appropriate document or plan from the drop-down list.

Select the most appropriate document or plan for each description.		
#	Description	Select
1	Defines how requirements will be analyzed, documented and managed.	Select ▼
2	Documents the schedule baseline and how it will be maintained.	Select ▼
3	Identifies potential risks and how they will be monitored and controlled.	Select ▼
4	Describes quality standards and how quality will be assured in the project.	Select ▼

Drop-down Options

- Risk Management Plan
- Requirements Management Plan
- Schedule Management Plan
- Quality Management Plan
- Process Improvement Plan
- Resource Management Plan
- Communications Management Plan

Why it matters: These question types test your ability to apply knowledge, make decisions and choose the best option in real-world situations.

Practice. Analyze. Succeed!
You've got this!

What's New in the PMP® Exam (July 2026 Update)?

The July 2026 PMP® exam reflects the evolving role of project managers, with greater focus on strategic leadership, technology, and business value.

- **AI in Project Management** – Understand how AI supports planning, decision-making, communication, and project delivery with responsible human oversight.
- **Sustainability** – Emphasizes responsible project delivery and long-term business and environmental impact.
- **Business Value** – Focuses on delivering outcomes that align with organizational goals and stakeholder expectations.
- **Stakeholder Engagement** – Highlights communication, collaboration, leadership, and effective stakeholder management.
- **Predictive, Agile & Hybrid** – Integrates all delivery approaches throughout the exam, requiring the right approach for different project scenarios.

Tips to Prepare for the Updated PMP® Exam

- ➡ **Understand the Latest Exam Content Outline (ECO)** – Focus on People, Process, and Business Environment domains.
- ➡ **Learn PMBOK® Guide 8th Edition Concepts** – Combine predictive, agile, and hybrid project management approaches.
- ➡ **Create a Consistent Study Plan** – Dedicate 1–2 hours daily and stick to a realistic schedule.
- ➡ **Master Agile & Hybrid Methodologies** – Nearly half of the exam includes agile and hybrid scenarios.
- ➡ **Practice Scenario-Based Questions** – Develop the mindset needed for real PMP exam situations.
- ➡ **Take Full-Length Mock Exams** – Build confidence, improve time management, and identify weak areas.
- ➡ **Review Incorrect Answers** – Learn why an option is right or wrong instead of memorising questions.
- ➡ **Strengthen Time Management** – Complete 180 questions within 230 minutes through regular practice.
- ➡ **Use PMI Mindset & Best Practices** – Answer questions from PMI's perspective, focusing on value delivery and servant leadership.
- ➡ **Revise with Cheat Sheets & Mind Maps** – Quick revision before the exam improves retention.
